

Introducing Friends of Parks

Friends of Parks groups are community based volunteers who work in genuine partnership with the Department for Environment, Water and Natural Resources (DEWNR) and are committed to the protection and enhancement of the natural and cultural heritage in South Australia's national parks and reserves.

Friends of Parks groups offer activities for people of any age, gender, nationality, occupation and natural ability. There is something for everybody. No special qualifications are essential.

Donate now

Public donations are becoming increasingly important in enabling recipient groups to further their projects in South Australia's reserves' system and to off-set rising operating costs. The Friends of Parks Incorporated Gift Fund provides a mechanism for donations to be made in support of this worthy cause.

Any Friends of Parks group can apply for a grant from the gift fund. A request is made to the Board detailing how the funds will be used, and the Board will then distribute an amount through the Treasurer. All funds are used for on park maintenance and specific projects such as the establishment of photo points, wildlife surveys, feral animal monitoring in parks etc.

For further information on making a donation, or anything else relating to the Friends of Parks organisation please visit the website: www.friendsofparkssa.org.au

Helping to ensure our parks remain as a lasting legacy for future generations.

The national parks and reserves network covers over one fifth of the State.

Volunteers are vital in helping conserve native flora and fauna and our natural and cultural heritage across these sites.

With over 110 groups across the state, Friends of Parks volunteers generously give their time and energy to a range of activities.
